

Stephanie Wilson, LSSP

Mrs. Stephanie Wilson is a Licensed Special in School Psychology providing assessment services under the supervision and direction of Dr. Jones and Dr. Scott.

Mrs. Stephanie obtained a Bachelor of Arts in Psychology from the University of Texas at San Antonio in 2005, and then went on to earn a Master of Arts in School Psychology from Trinity University in 2008.

Mrs. Stephanie has a wide range of experience working with children and adolescents in the school setting. For nine years, she worked with students in the Grand Prairie Independent School District (GPISD), where she gained experience conducting comprehensive evaluations to assess for a variety of disabilities, including Autism Spectrum Disorder, Attention-Deficit/Hyperactivity Disorder (ADHD), Specific Learning Disabilities, and Intellectual Disabilities, as well as other emotional and behavioral difficulties. In addition to completing assessments, Mrs. Stephanie is well-versed in conducting Functional Behavior Assessments, writing Behavior Intervention Plans, and conducting counseling evaluations, group counseling, such as social skills training, and suicide and violence risk assessments. Through her work with GPISD, she was additionally able to participate in a unique partnership with the Grand Prairie YMCA. Through this partnership, she worked alongside a team of special educators in facilitating an inclusive summer education program with students who suffered from severe and profound disabilities. Eventually, this program grew to include monthly respite events provided to children with disabilities and their siblings.

Prior to working for GPISD, Mrs. Stephanie completed a 1200-hour internship program with Arlington ISD (AISD) where her primary focus was leading multidisciplinary evaluation teams in conducting assessments for students suspected of having educational disability concerns. During graduate school, she participated in two site-based practicum opportunities with the Winston School and a Military Independent District Cooperative.

Mrs. Stephanie is dedicated to helping patients and/or their families face challenges and make changes which can lead to growth and success. She is committed to providing outstanding and detailed assessments that provide a clear profile of an individual's strengths and needs.
