## **CONSENT TO SERVICES**

Welcome to The Jones Center for Children's Therapy and Assessment, herein referred to as JCCTA. This document includes important information about our professional services and business practices. Please read it carefully and make note of any questions you may have so they can be discussed and addressed during your next session. When you sign this document, it will represent an agreement between you and JCCTA.

### **Psychotherapy Services**

Psychotherapy is not easily described in general statements. It varies depending on the personalities of the clinician and patient, and the particular problems brought forth. There are many different methods your clinician may use to deal with the problems you hope to address. Psychotherapy is generally unlike any services you may receive from a physician in that they require your active participation and cooperation.

There are both benefits and risks to psychological treatment. Since therapy often involves discussing unpleasant aspects of life, you may experience uncomfortable feelings like sadness, guilt, anger, frustration, loneliness, and helplessness. On the other hand, psychotherapy has also been shown to have benefits for people who go through it. Therapy often leads to better coping skills, healthier behaviors, better relationships, solutions to specific problems, and significant reductions in feelings of distress. However, there are no guarantees and you may or may not achieve desired results.

Clinicians at JCCTA typically conduct a clinical interview during the initial session in order to collect relevant history and information regarding current concerns. By the end of the initial session, your clinician will be able to offer you some first impressions of what your treatment will include, should you decide to continue with therapy. You should evaluate this information along with your own opinions of whether you feel comfortable working with that clinician. Therapy involves a large commitment of time, money, and energy, so you should be very careful about the therapist you select. If you have questions about our procedures, please present them as soon as possible and we will do our best to address them.

Clinicians at JCCTA utilize empirically validated treatment approaches to alleviate a variety of symptoms. The length of treatment may be brief for minor issues or may last longer for more complex problems. Typically, patients are seen for 45 minute therapy sessions once weekly or biweekly, but this may be more or less frequent depending on your needs. Once an appointment is scheduled, you are expected to pay for it unless you provide 24 hours advance notice of cancellation, not to include Saturdays, Sundays, and observed holidays. If you need to get in touch with your clinician between sessions, please email your clinician or call our office at (817) 453-2400 and your call will be returned as quickly as possible.

***If you have an emergency, call 911.***

Cancellation of standing appointments – JCCTA reserves the right to modify or cancel all scheduled/standing appointments at any time and, more specifically, if:

1. Two (2) scheduled/standing therapy appointments are missed consecutively without proper notification.
2. The patient does not present for a session with his or her primary clinician for 60 days.
3. Attendance at scheduled/standing therapy appointments is inconsistent for any reason.

### **Psychological, Neuropsychological, and Psychoeducational Assessment Services**

There are a variety of purposes for psychological, neuropsychological, and psychoeducational testing, most notably to provide diagnostic clarity and guide treatment recommendations and goals. These evaluations typically include the following:

- Review of relevant records - You may wish to voluntarily provide your records to supplement testing conducted by JCCTA. Records may include results of previous testing and other mental health and medical records.
- Information collected during the clinical interview and from the patient history form.
- Empirically validated assessment tools administered to you - These assessment tools include, but are not limited to, tests of intellectual functioning, academic achievement, language ability, perceptual processing ability, executive functioning, communication skills and social interaction, critical thinking skills, and emotional, ideational, and personality functioning.

After the testing session(s) concludes, the evaluator scores the test data, which is analyzed and interpreted by the supervising psychologist who then produces a comprehensive report detailing the aforementioned data, summarizing the results, listing DSM-5 diagnostic impressions, and providing appropriate recommendations for further direction.

A feedback session is typically scheduled upon completion of the assessment report with the testing clinician and/or supervising psychologist. During this session, test results and assigned diagnoses and recommendations will be reviewed and explained. Under most circumstances, you will receive an unofficial copy of the report during the feedback session, which you will be permitted to take with you that day. You will receive an official copy of the report once all financial obligations have been fulfilled.

### **Clinician Information**

Jessica O. Jones, PsyD, LPC-S is a Clinical Psychologist licensed to practice independently in the state of Texas. She provides direct patient services and supervises other clinicians employed at JCCTA. Dr. Jones is also a Professional Counselor licensed in the state of Texas with certification to supervise LPC Associates.

JCCTA employs licensed clinicians at both the doctoral and master's levels, including Psychologists, Professional Counselors, Marriage and Family Therapists, Clinical Social Workers, and/or Psychological Associates. These individuals are duly authorized to practice psychology in the state of Texas, independently or under the direct supervision of Dr. Jones, as dictated by the applicable licensing board.

### **Confidentiality**

In general, the privacy of all communications between a patient and a psychologist, or other mental health professional, is protected by law, and information about services provided can only be released to others with written permission. However, there are conditions in which confidentiality may be violated. These include:

1. Evidence of abuse of a minor, elder, or mentally impaired individual.
2. Evidence of imminent suicidal or homicidal intent.
3. You are a client referred by the court or an agency.
4. Your records have been subpoenaed by a court of law (see Litigation Policy).
5. Your health insurance company (payer source) requires certain patient information as dictated by law.
6. You are a patient being treated by a supervised clinician, in which case your treatment will be discussed with Dr. Jones, clinical supervisor.
7. It is determined by your treating clinician consultation or collaboration with another clinician employed by JCCTA is clinically appropriate and warranted.
8. Certain patient information is submitted to a collection agency in order to collect the balance of an overdue account.

### **Professional Records**

The laws and standards of the profession of psychology require clinicians to keep treatment records. Because these records contain information that can be misunderstood and/or misinterpreted by someone who is not a mental health professional, it is JCCTA's general policy patients not review them. However, a treatment summary may be provided at your request, if appropriate and if doing so would not be emotionally damaging. If you choose, JCCTA will send records and/or a summary of treatment to another qualified health professional who is working with you, with proper authorization.

### **Professional Fees**

The fee for the initial clinical interview, which must occur prior to initiation of therapy and/or assessment services, is \$250.00. Subsequent individual therapy sessions are \$200.00, unless the appointment lasts a duration of 53 minutes or

## **Litigation Policy**

Active litigation, such as divorce cases, is often detrimental to the therapeutic relationship and can hinder a clinician's ability to treat a patient, namely due to the fact it often involves full disclosure of matters of a confidential nature. As such, it is agreed that, should there be legal proceedings, you, your attorneys, or anyone acting on your behalf will **NOT** subpoena JCCTA records, or any JCCTA clinician or employee to provide a deposition, testify in court, or engage in any other legal

process or proceeding. If any JCCTA employee is subpoenaed to provide records or testimony in violation of this agreement, you agree to pay any and all fees accrued for document preparation and professional time, even if said records or testimony is requested by another party. Should this occur, which is again in violation of this agreement, JCCTA reserves the right to terminate your treatment immediately. Referrals to other mental health professionals will be provided.

By signing this Consent to Services, you hereby agree to this Litigation Policy in its entirety. You also acknowledge the applicable fees outlined below represent reasonable compensation for the expertise of our clinicians, and are hence considered liquidated damages in the event this agreement is violated, regardless of which party issues the subpoena. These fees are to be paid in full at least five (5) business days prior to preparation of requested documents or clinician appearance at any legal proceeding:

- **\$200.00** – One (1) copy of your mental health records and other pertinent documentation.
- **\$200.00 (per hour)** – Telephone deposition or consultation call.
- **\$1200.00** – Availability of the treating licensed clinician from 8:00 am to 12:00 pm or 1:00 pm to 5:00 pm (half day) within 50 miles of the JCCTA office.

- **\$3500.00** – Availability of the treating clinician, who provides services under the required supervision of Dr. Jones, and Dr. Jones herself, from 8:00 am to 5:00 pm (full day) within 50 miles of the JCCTA office.

## Insurance Reimbursement

If you have a health insurance policy, it will usually provide some coverage for mental health treatment. JCCTA will fill out forms and provide you with whatever assistance we can in helping you determine and receive the benefits to which you are entitled. If benefits cannot be determined prior to or at the time of service, and/or when there is any doubt regarding financial responsibility, payment is expected in full. Keep in mind, your insurance policy is a contract between you and your insurance carrier and we are not a party to that contract. You should carefully read the section in your insurance coverage booklet that describes mental health services. If you have questions about the coverage, call your plan administrator. Of course JCCTA will provide you with whatever information we can based on our experience and will be happy to help you in understanding the information you receive from your insurance company. If it is necessary to clear confusion, JCCTA will be willing to call the company on your behalf.

In accordance with Texas law, actively licensed psychologists have the authority to delegate the provision of therapeutic and assessment services to certain other clinicians who are not eligible for managed health care (insurance) panels. The supervising Licensed Psychologist (i.e., Dr. Jones) remains responsible for the psychological services rendered by these individuals. This provision does not ensure, however, your insurance company will duly reimburse for said services.

*All co-payments, co-percentage payments, payments toward a deductible, and costs of services not covered by your insurance are due and payable at the time services are rendered, unless agreed upon otherwise. Any balances due to JCCTA after your insurance carrier has provided any applicable payment will be billed to you. Remember, **YOU** (not your insurance company) are responsible for full payment of all fees.*

If your account has not been paid for more than 60 days and arrangements for payment have not been agreed upon, JCCTA reserves the right to use legal means to secure payment. This may involve hiring a collection agency or going through small claims court.

You should also be aware most insurance companies require you to authorize JCCTA to provide them with a clinical diagnosis for you. Sometimes we have to provide additional clinical information, such as treatment plans or summaries or copies of the entire record. This information will become part of the insurance company files and will probably be stored in a computer. Though all insurance companies claim to keep such information confidential, JCCTA has no control over what

they do with it once it is in their hands. In some cases, they may share the information with a national medical information databank. JCCTA will provide you with a copy of any report submitted, if requested.

**If insurance benefits are being utilized, please review the statements below and initial here.** \_\_\_\_\_

1. I authorize use of this form for all of my insurance submissions.
2. I authorize release of information to all my insurance companies.
3. I authorize JCCTA to act as my agent in helping me obtain payment from my insurance company.
4. I authorize payment from my insurance company to be made directly to JCCTA.
5. I understand I am ultimately responsible for any and all fees accrued, to include those not payable under my insurance policy.

**If insurance benefits are NOT being utilized, please review this statement and initial here.** \_\_\_\_\_

I am not using insurance benefits and understand I am, therefore, responsible for 100% of any and all applicable fees at the time services are rendered.

### **Termination of Services**

If the treating clinician and/or clinical supervisor determine appropriate services can no longer be provided to you for any reason, treatment will be terminated and referrals to other professionals will be provided.
